Assessment tool for incoming governors

The District Planning Guide is available on My Rotary. It is a document that incoming governors can use to assess their districts and make improvements in areas that need it. This 2-page resource can be a valuable resource for a health check and planning guide. The link is on the governor's page under Learning & Reference as well as the district committees page.

Toolkit to Engage Younger Members

Engaging Younger Professionals <https://www.rotary.org/en/engaging-younger-professionals-toolkit> is an online toolkit, which helps clubs understand this important demographic and rethink membership, from a broad perspective down to a tactical level. It's a great starting point for clubs that want to broaden their membership but don't know where to start.

Tools for incoming club leaders

Club presidents-elect would already be thinking about how to help the club succeed next year. You can get advice on planning for the coming year, creating an engaging club experience, and working with your leadership team to ensure your club runs smoothly by taking the Club President Basics courses in Rotary's Learning Center.

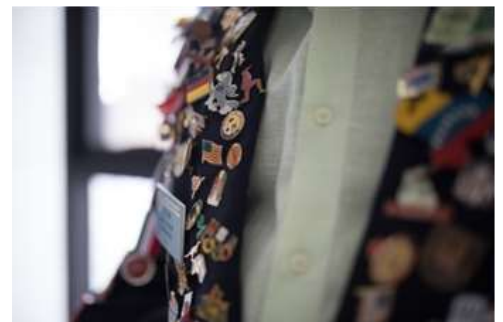

Creating a club culture that's welcoming to everyone starts with having conversations about diversity, equity, and inclusion. Discussing these topics isn't always easy, but the Creating an Inclusive Club Culture in the Learning Center will help your club hold discussions, assess policies and practices, and make changes to create a more inclusive culture.

In-person Rotary Youth Exchanges to resume in July

As the new Rotary year approaches, the districts may want to reacquaint with the Youth Exchange program. A variety of resources are available for your easy reference:

- * Visit the Rotary Youth Exchange page to learn more about the program and how to get involved.
- * Review the new Youth Protection page, which includes a way to report a youth protection issue, because the safety and well-being of participants is Rotary's highest priority.
